Face shield FS002

compatible with EN 166

Made
in Poland

WWW.PROTEKT.PL

FACE SHIELD

compatible with EN 166

Face shield that reduces the risk of coming into contact with germs, viruses and bacteria from the environment. By protecting the area around eyes and mouth, it perfectly complements cloth antiviral face masks and serves as an additional protective barrier when coming into contact with an infected person. The adjustment mechanism allows you to adjust the shield to any head size. The shield is reusable and resistant to alcohol-based disinfectants.

WEIGHT: 325g
